

Lender's (Technical) Advisor

Being the Lender's (Technical) Advisor in new markets/investments within renewables guided by informed decision making with a holistic view of the political, social and commercial challenges and a complete understanding of all risks and opportunities

The H&G Way

- / Pre-financial close involves extensive due – diligence, comprehensive risk assessment & their impacts – technical, commercial, environmental, social and geo – political (if any)
- / Post financial close comprises of assessing full compliance with the financial agreement & its terms
 - / Project monitoring during construction phase with respect to all work streams, HSE & QA
 - / Ensuring all permits (land, technical, regulatory, environmental & social) are in order
 - / Verification of works, commission and assuring preparation for operations
 - / Upholding transparency in reporting to the stakeholders involved
 - / Advising on potential claims, road – blocks, mitigating factors for completion

Why H&G

- / Fully independent and able to scale & customize approach to the clients needs
- / Broad experience base in both Renewables and Oil and Gas to ensure relevance and completeness
- / Diverse team with global experience, specialized on Nordic countries and emerging markets
- / Multidisciplined team with complete focus on value added delivery and simplified solutions
