

PERSONAL DETAILS

E-MAIL: yurii.dehtiarov@hustadgranaas.com
PHONE: +49 178 177 6008
ADDRESS: Berlin, Germany
GENDER: Male
NATIONALITY: Ukrainian

EDUCATION: Master of Electrical Engineering, Donetsk National Technical University, Ukraine

TECHNICAL SKILLS: MS Office, MS Project, Visio, AutoCAD, E-Plan

LANGUAGES: Russian Native
Ukrainian Fluent
English Advanced

SUMMARY:

More than 15 years in construction industry on large-scale industrial projects. Familiar with projects for the rehabilitation and construction of high-voltage substations, the construction of power plants (coal fired, gas turbine), air separation units, has practical experience with wind power. Strong knowledge of all interfaces and stakes of the construction project. Able to deal with a variety of partners. Good command and communicative skills. Able to work in stressful situations with tight deadlines

PROFESSIONAL SUMMARY

08/'21 – 02/'22 [NBT LLC, Project Services Manager, Ukraine](#)

Project: Construction of 400MW Wind Farm | Emergy AS

Responsibilities: development and maintenance of Project Controls including cost, schedule, risk, change management and reporting.

Main tasks: develop and manage the project CAPEX budget, covering all project-related costs to allow for adequate cost control, forecasting and trending of cost including tracking of all payment milestones according to EPC contract and report (cost) progress to Top Management, Lenders, and other stakeholder groups. Ensure that an integrated and activity-based project schedule is prepared and maintained. Assess the impact of any changes (budget and schedule) and manage contingency usages in case needed. Establish, maintain, and drive general project reporting in line with lenders

and other stakeholders' requirements and issue project reports on a frequent basis to Lenders and other stakeholder groups. Develop the progress assessment method. Maintain the change registers in line with the projects management of change procedures. Maintain the project risk registers and follow-up of mitigation actions. Ensure document control systems are appropriately managed, in line with regulatory and operational requirements. Participate in management meetings.

06/'17 – 08/'21 [Posco International Corporation](#), [Project Manager, Ukraine](#)

Project: Rehabilitation of 2x330kV substations (AIS to GIS) | Ukrenergo
Construction of 330kV substation (GIS) | Ukrenergo
Main equipment supplies for 500kV substation (GIS) | Ukrenergo

Responsibilities: management of all project activities. Serve as the primary contact point between the Employer and the General Contractor.

Main tasks: manage preparation of tender proposals. Develop and manage construction program, budget, and schedule. Establish and run stakeholder management and communications. Manage issues and track required actions. Manage contractors. Coordinate collaboration between designers and equipment manufacturers. Establish and maintain risk register. Run project reporting to HQ and Employer. Conduct stakeholder meetings.

06/'16 – 06/'17 [Huawei Technologies](#), [Completion Manager, Ukraine](#)

Project: PSTN Modernization Project | Ukrtelecom
RAN SWAP 3G Project | Kyivstar

Responsibilities: development and implementation of project completion program. Management of acceptance office.

Main tasks: develop and maintain acceptance procedures. Build a team for acceptance office. Monitor and control the process of acceptance of the work performed by contractors. Run inspections and site tests. Validate scope of work performed according to approved method. Confirm and sign-off payment certificates. Execute necessary actions to ensure that all associated packages within the discipline are ready for turn-over.

06/'15 – 06/'16 [Eltel Networks TE AB](#), [Site Project Manager, Ukraine](#)

Project: Rehabilitation of 220kV substation (AIS) | NPC Ukrenergo

Responsibilities: management of all construction activities at site from pre-construction stage to COD.

Main tasks: monitor contractor's performance. Track and manage issues. Acquire equipment and materials and monitor stocks. Run site audits. Manage work acceptance. Run progress review meetings. Report to Project Director.

08/'10 – 06/'15 [EUAM LLC](#), [E&I Project Manager / Site Manager, Ukraine](#)

Project: Construction of Air Separation Unit 1400 | Air Liquide
Construction of 300MW CCGT Power Plant Unit 2 | MHI

Responsibilities: provision of technical and administrative management at site. Management of all activities related to E&I package.

Main tasks: arrange pre-construction activities and early works. Setup office and construction compound. Develop and maintain the project budget. Hire staff. Develop construction schedule (level 5). Monitor and control the progress of work. Ensure timely completion and safety of work within budget and quality standards. Track and manage issues. Manage equipment custody. Establish and maintain document control center. Run project reporting to HQ and Employer.

10/'07 – 08/'10 Azovintex, Lead Project Engineer, Ukraine

Project: Construction of 300MW CCGT Power Plant Unit 1 | MHI

Responsibilities: establishment of E&I department in construction enterprise.

Main tasks: collaborate with engineers to determine the specifications of the project. Negotiate contracts with external vendors. Obtain permits and licenses from appropriate authorities. Determine needed resources. Hire contractors and other staff, allocate responsibilities. Evaluate progress and prepare detailed reports.
